

KNS Gaming

Metropolis City

How will We Test the popularity/success of the Game?

We will get a group of about 30 people (ages 9 and older) and ask them to play the game for about 45 minutes. After this time frame is over, we will interview them and ask their opinions on the game. We could also ask them to rate it on a scale of 1-10.

KNS Gaming

Hello. This is KNS Gaming (Kate, Natalie, and Savannah). We have just created a new video game called *“Metropolis City.”* It’s an adventure game with lots of objectives and interactions. You can customize your character (choice of gender, clothing, hair, etc.). There are no in game purchases. You are a superhero that interacts with the citizens of the metropolis. You face many problems that the metropolis throws at you. Can you face the problems? Will you accept the challenge?
